If you receive a message that the Access Key is already in use:

1. You have already registered an account with a different email address **OR**
2. Your partner has already registered an account with a different email address

All students at MHS have an Access Key. That access key was emailed to the nominated household email address at the beginning of 2021.

All unregistered accounts (those accounts that have an Access Key but have not registered an account or linked a student(s)) had their Access Keys redistributed to the nominated household email address in Week 6, Term 1 2021.

Access keys can be found in the inbox of your nominated household email address.

For those parents/caregivers who have children at multiple schools, they can change schools within the Sentral app via the Settings cog icon.

The app will prompt parents to select the other school and log in. This process will log them out of the previous session.

Parents will not remain logged in to two schools simultaneously.
